VALLEY ROCK INN & MOUNTAIN CLUB

is Hudson Valley's Hidden Gem

STORY BY ANGELINE SHERIDAN
PHOTOGRAPHY BY VALLEY ROCK INN

A photograph of a modern outdoor patio. In the foreground, a round, light-colored table with a dark, ornate pedestal base is set with two dark-colored chairs. On the table sits a potted plant and a woven basket. The patio is enclosed by a dark railing. To the left, a wooden shingle wall is visible. The background is filled with dense green foliage and trees. A hanging lantern is visible in the upper right corner.

Bruno's interests and personality reflect different aspects of Valley Rock, creating a vibe of a deconstructed mansion for the health and fitness-conscious elite.

Tucked in the quaint Village of Sloatsburg is one of Hudson Valley's best-kept secrets. Surrounded by trails and lakes in every direction thanks to its proximity to Harriman State Park and Sterling Forest, Valley Rock Inn & Mountain Club is a welcoming retreat for guests looking to escape from the hustle and bustle of metro New York living.

Valley Rock opened in late 2018 and continues to expand, thanks to owner and entrepreneur Michael Bruno.

Valley Rock is a manifestation of something that I was always interested in, in a place that I never dreamed it would occur. I always liked architecture, historic properties and nature.
